Dear Mr. Briley:

Your 10 July editorial, "Going Too Far" was a notably evenhanded treatment of a serious national problem. The Covert Action Information Bulletin, a publication devoted to the dissolution of U.S. intelligence organizations, deserves to be presented to Americans for what it is--an irresponsible enterprise that, as your article suggested, jeopardizes the future of every American.

Thank you for your concern, for your balanced sensitivity, and for taking an enlightened step to alert your readers to this problem.

Sincerely,
